

PRODUCT DESCRIPTION

AquaKler is a unique patent-pending granular formulation that drastically improves an aquatic ecosystem, often with just a single application. The granules are specially formulated for the slow release of oxygen in aquatic systems. The oxygen release rate is tailored to the need of the sediment and water being treated. The resulting increase in dissolved oxygen decreases odor, and reduces sludge resulting in greater water clarity.

The AquaKler granules are also designed to enhance the oxidation potential at the sediment-water interface. This patented technology leads to a dramatic long-term control of phosphorus loading; a major factor in the degradation of aquatic environments. This makes AquaKler both an economically and ecologically sound aquatic treatment for the long term restoration of oxygen-deficient water.

APPLICATION RATES

If the pond/lake contains algae, treat with an algacide first. Two days later, apply AquaKler across the surface at a rate of 20-80 lbs per surface acre. Depending on water condition, higher rates can be used initially until organic buildup and/or phosphate level has diminished to a manageable level.

Apply using a boat mounted clean seed spreader, whirlybird spreader, or pour slowly into prop wash. (clean spreader after application of AquaKler) Cover as much of the water surface as possible. Repeat as necessary. Conditions and results will vary by geographic location, phosphate concentration, volume of organic load (manure, etc.) and water temperature.

BENEFITS

- **Odor Control**
- **Water Clarification**
- **Enhanced DO**
- **Improved Ecosystem**
- **BOD Reduction**
- **Phosphate Immobilization**

SAFETY PRECAUTIONS

Avoid contact with eyes. Wear chemical goggles. Avoid prolonged contact with skin. Wear chemical resistant gloves. Do not ingest. Avoid breathing dust. Wash thoroughly after handling. Keep container closed when not in use. Avoid contamination with moisture and dirt and store away from direct sunlight. Do not transfer to unlabeled containers.

First Aid: Inhalation – Move victim to fresh air. Call a physician in case of respiratory problems. **Eye Contact** – Immediately flush with running water for at least 15 minutes. Call a physician. **Skin Contact** – Remove contaminated clothing and wash skin and clothing with soap and water. **Ingestion** – If conscious, rinse mouth with water and give fresh water. Call a physician. **Spills and Leaks** – Sweep and store in vented plastic container. Do not return to original container. Dispose of in accordance with local, state and federal regulations. Flush spill area with water. **Fire** – Flood with water.

CONDITIONS OF SALE

Seller warrants that products will be labeled as required under state and federal law and that they conform to the label description. Any non conformance must be reported in writing to Seller within thirty (30) days after purchase as a prerequisite to maintaining any claim against Seller. Buyer agrees to inspect all products purchased immediately upon delivery.

THE SELLER'S LIABILITY ON THIS WARRANTY IS LIMITED IN AMOUNT TO THE PURCHASE PRICE OF THE PRODUCT. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THERE ARE NOT WARRANTIES WHICH EXTEND BEYOND THIS STATEMENT.
