ENDURANT FLEX

MAKE A LASTING
IMPRESSION

32 OZ
MADE IN USA

PRODUCT DESCRIPTION

Endurant Flex is an eco-friendly organic pigment made with binders chosen specifically for its excellent adherence to turfgrass. **Endurant Flex** is a temporary color enhancer intended for use from spring transition until approaching dormancy conditions **start** to occur.

Endurant Flex provides a natural looking green associated with actively growing healthy turf, for a visual appeal that is unmatched by any other colorant while staying consistent with superior color, quality and value associated with the **Endurant Turf Colorants** line.

Simply mix **Endurant Flex**, according to label application rates in with weekly spray applications to provide color uniformity, to mask discoloration from chemical treatments and to present a vibrant, lush green appearance on a regular basis.

APPLICATION & RATES

Apply **Endurant Flex** at a rate of 32-64 ounces per acre. Increase or decrease rate to achieve desired color depth based on chlorophyll presence. Turf conditions, equipment calibration and depth of color cause coverage rates to vary.

Allow **Endurant Flex** to fully disperse into agitation following standard order of addition regarding pesticides, fungicides, and fertilizers.

After application, clean tank with water and/or tank cleaner and according to pesticide manufacturer instructions if applicable.

DIRECTIONS FOR USE

Contents may settle: Shake or agitate well before mixing. It is recommended that prior to applying **Endurant Flex**, cut turf to desired height.

Blow surface free of debris, including clippings, leaves and worm castings. Nozzle types, pressure and spray angle will affect proper product distribution. Recommended carrier of no more than 50 GPA. Avoid overspray on areas such as curbing, concrete, tee markers or other objects where color is not desired. Accidental overspray may be decreased by immediately using a scrub brush with a mix of soap and water.

EQUIPMENT NOTICE

Please consult with your sales/technical representative for equipment recommendations. Rinse spray tank, screens, and soak nozzles thoroughly after using any colorant. **Endurant Flex** is tank mix compatible with numerous pesticides, herbicides, fungicides and fertilizers. Performing a standard compatibility jar test is strongly recommended for any tank mixtures. DO NOT combine any other products containing additional pigments to **Endurant Flex** as a negative discoloration of the product may occur.

PRECAUTIONS

Keep out of reach of children. Avoid contact with skin and wash immediately should this occur with soap and water. In case of eye contact, wash thoroughly with water. If irritation persists, contact a physician immediately. NOTICE TO BUYER: This product is intended for professionals. Users must exercise all due caution and judgment when applying the product under their particular growing conditions. Limitation of liability and warranty: Geoponics Corp and/or any other seller warrants only that this product conforms to the description on the product label. No other warranties, expressed or implied, as to merchantability for particular use, or otherwise shall apply. Purchaser's exclusive remedy for loss or damage related to this product shall be the refund of the purchase price only. By using this product, you are deemed to have accepted the terms of this notice.
