PRODUCT DESCRIPTION

Endurant LEYLAND CYPRESS tree colorant is an eco-friendly, organic-based pigment made with binders specifically chosen for adhesion to trees. The technology ensures the color remains full, rich and natural looking consistent with a healthy pine tree. Its realistic visual appeal is unmatched by any other brand on the market.

DIRECTIONS

Contents may settle. Shake before mixing.

Cover any areas you do not want painted, including hands, while avoiding fabrics or other surfaces you do not want green colorant applied.

If accidental overspray occurs, wash immediately with water and soap, or a cleaner, such as an ammonia-based window cleaner.

Mix colorant in a garden sprayer at a ratio of 15:1, water to colorant (8 oz of colorant per gallon of water.)

Apply evenly to leaf blades of the tree.

Apply evenly and allow colorant to dry (up to 24 hours depending on conditions).

A second application may be applied after drying if additional color is desired.

EQUIPMENT NOTICE

Please consult with your sales/technical representative for equipment recommendations. Rinse spray tank, screens, and soak nozzles thoroughly after using any colorant. **Endurant LEYLAND CYPRESS** is tank mix compatible with numerous pesticides, herbicides, fungicides and fertilizers. Performing a standard compatibility jar test is strongly recommended for any tank mixtures. DO NOT combine any other products containing additional pigments to **Endurant LEYLAND CYPRESS** as a negative discoloration of the product may occur.

PRECAUTIONS

Keep out of reach of children. Avoid contact with skin and should contact occur, wash immediately with soap and water. If irritation persists, contact a physician immediately.
