Hal Akins CGCS

Bonita Bay Club

"Duration wetting agent has proven to be a reliable and valuable tool for us at Bonita Bay Club. With our high levels of play and the demand for consistent turf quality, Duration has helped us address localized dry spots across the course effectively. Its compatibility with other products, such as fertilizers and fungicides, has streamlined our applications, allowing us to blend it seamlessly without the need for immediate watering in. This flexibility, combined with its economical cost per acre, has delivered impressive results over the past few years. We are very pleased with the performance and value of Duration wetting agent and would highly recommend it for golf courses seeking dependable turf solutions."

Greg Weaver GCS

Naples Lakes CC

"At Naples Lakes, maintaining optimal turf health while managing water usage efficiently is a top priority. Since incorporating Duration in our fairway program, we've seen a significant improvement in soil moisture retention, leading to healthier, more resilient turf. Duration has helped us achieve more uniform water distribution, reducing dry spots and minimizing the need for excessive irrigation. Not only has it improved playability, but it's also contributed to better overall course conditions throughout the season. I highly recommend Duration for any golf course looking to enhance turf hydration and sustainability."

Gino Salvatore

GGN Turf - Arthrex

"As a dedicated provider of top-tier turf care solutions in Southwest Florida, GGN Turf relies on Duration Wetting Agent to maintain uniform moisture distribution across sports fields, corporate landscapes, and private residences. The consistent performance it offers ensures a lush, healthy appearance across every square foot, making it a go-to for maintaining quality standards in challenging environments. The application is incredibly user-friendly, and the cost per acre is impressively low, making Duration Wetting Agent a practical and efficient choice for large-scale and smaller properties alike. We highly recommend it for anyone seeking a reliable, economical solution to maintain pristine turf."
